Your Maintenance Solutions Experts

Facility maintenance in the operation of any business can be a daunting task, your daily to-do list can get quite long — whether it's filled with housekeeping, maintenance tasks, renovation projects, security or day-to-day operations. Facility maintenance is a bigger, more expensive job than most people realize, or want it to be. Even if you have dedicated people to manage and maintain, there always seems to be a shortfall of resources.

Whether your industry is hospitality, food services, healthcare, manufacturing, senior living, clubs and associations, government or any of a thousand different ventures, Home Hardware Commercial Maintenance is a partner you can trust to provide quality professional grade products for your specific business needs.

Our network of suppliers is large and diverse. We can get answers fast and can procure almost any type of product you need. Our products range from janitorial and sanitation to maintenance and renovation materials, as well as commercial and institutional equipment and all are available from a single item to full truck or tanker load.

Our program is a cost-effective solution to your commercial maintenance needs reducing your bottom line costs. We offer delivery service with no minimum ordering requirements — either quantity or dollar amounts\*. Also, if you choose, we can manage your inventory levels for you.

Our commitment is to save you time and money. With 60,000 plus items stocked in our warehouses and over 100,000 items available through our supply chain we can cover all your needs... one supplier, one invoice, one call.

**Cleaning - Repairing - Maintaining - Renovating - Manufacturing**

**Here's How.**

Home Hardware is known for our value, service and dependability and we are committed to delivering those values from our business to yours. We are excited about our Commercial Maintenance Supply division and all of the products and services that we have to offer.

Our Commercial Maintenance Supply division offers more than just products for your business. We provide comprehensive business solutions personalized to your needs. Home Hardware stores are independently owned and each Home Dealer, as a member of your community, understands and appreciates the environmental, logistical and resource issues that you face every day.

Your Commercial Maintenance Supply Dealer is backed by 3 state-of-the-art distribution centres totaling almost 3 million square feet. These regional centres carry 60,000 items with thousands more available on a special order basis. With the buying power of 1100 stores and a fleet of more than 400 trailers, the professional products that your business needs are always close by.

We look forward to building a long-lasting relationship with your company, and to making our Home feel like yours.

Warmly,

Terry Davis

ECO II bags feature a special blend of recycled linear low density polyethylene to produce a stronger more durable product that delivers maximum performance.

## DETERMINING THE CORRECT BAG SIZE

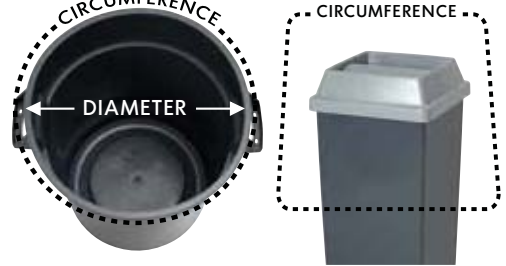

### To calculate the required bag size:

#### Rectangular/Square Containers:

bag width = length of container + width of container  
(or half the outer circumference - see diagram)  
bag length = height of container + 4 to 5 inches for overhang

#### Round Containers:

bag width = diameter of container x 3.14 / 2  
(or half the outer circumference - see diagram)  
bag length = height of container + 4 to 5 inches for overhang

### Common Bag Sizes for Round Containers

20 gallon (75.7 L)  
30" x 38" (76 x 97 cm)  
32 gallon (121 L)  
35" x 50" (89 x 127 cm)  
44 gallon (166.5 L)  
42" x 48" (107 x 122 cm)

### Common Bag Sizes for Rectangular Containers

3.4-7 gallon (13-27 L)  
20" x 22" (51 x 56 cm)  
7-10.3 gallon (27-39 L)  
26" x 36" (66 x 91 cm)

### Performance Collection

- P** Heavy traffic over 5000 footsteps per day. Toughest, strongest and most efficient solution to help get rid of soil and moisture. Premium quality, gathers several lbs. of dirt and built to withstand extreme traffic.
- Shopping malls
  - Hotels
  - Restaurants
  - Educational facilities
  - Convention centres

### Value Collection

- V** Light traffic, under 250 footsteps per day. An economical solution for your matting needs. These mats have proven their capabilities for decades.
- Small businesses
  - Side entrances
  - Boutiques

### Scrapers

- S** The first line of defense, designed to be used preferably outdoors (under cover), but are frequently placed in entrances. Tough, abrasive surface creates a scraping or raking effect, which removes heavy debris. Debris settles to the bottom of the mat and moisture runs off or evaporates.

### Wiper/Scrapers

- WS** Designed to scrape away remaining debris and moderately dry and wipe footwear. Irregular high/low surface forces dirt particles in between the crevices allowing the cleaning process to continue.

### Wipers

- W** The final touch to the ultimate protection of your interior flooring investment. With the heavy dirt and debris cleared by the scraping and wiper/scraping process, the wiper makes contact with footwear to thoroughly dust and dry the feet.

### Tuff-Spun® Foot Lover™ Mat

Economical anti-fatigue mat. Ribbed slip-resistant surface, bevelled edges help reduce tripping. Ideal for light duty applications. Black.

4433-017 3' x 5' x 9/16"

**D**

### Dry Environment

**D** Use supple mats to provide excellent support against muscular fatigue while offering better insulation than that of cement floors.

- Pharmacy counters
- Assembly lines
- Work stations
- Cashier stations

### Wet Environment

**W** Use mats with a drainage system to allow fluid to evacuate and prevent the risk of falls. These are generally made of a rubber compound that provide less support against fatigue yet have the advantage of adherence and durability.

- Cafeterias, restaurants, and bars
- Walk-in freezers
- Showers
- Dishwashing areas

### Wet/Oily Environment

**WO** Use very durable mats with efficient drainage systems. These are made of quality materials such as nitrile, which is resistant to many greasy products. An aggressive pattern ensures good adherence on an oily surface.

- Machine shops
- Kitchens and cook lines
- Garage work stations
- Oil changing pits

### Special Order Items

Items that are indicated as 'Special Order' may require longer lead times for delivery. Please check with your local Home Dealer for delivery times and pricing.

### Product Catalogue Descriptions

While every precaution is taken to ensure that items are described accurately, we reserve the right to correct any errors which might occur. Please check with your Home Dealer for current information.

### Returns

We will gladly accept any unused regularly stocked merchandise for refund or exchange within 30 days of purchase. Simply return the complete product to us in its clean, original packaging, accompanied by the bill of sale. All merchandise is subject to the manufacturer's warranty and will be repaired or replaced as per the manufacturer's directions. We regret that cut materials and special-order merchandise are not returnable.

### Material Safety Data Sheets

MSDS are vital safety partners for any professional maintenance and cleaning job in which combustible and toxic materials are used. MSDS provide you with all safety precautions that must be taken and essential first aid to be provided in case of accident. We can supply you with the MSDS for every applicable product that we sell. We ensure that this information is as current as our manufacturers can provide. The safety of you, your crews, and the public is our primary concern. MSDS are also conveniently located on our website: [homehardware.ca/supplyexperts](http://homehardware.ca/supplyexperts).

### Professional Cleaning Products

The Professional line of cleaning products is designed to meet the needs of commercial and industrial users. Professional cleaning products are tested against leading national brands and will not bear the name Professional unless they meet or exceed the performance of the national brand. All Professional cleaning chemicals are manufactured using premium ingredients to ensure they deliver both value and performance. Professional cleaning products are made in Canada for the Canadian climate\*.

### Eco-Professional Cleaning Products

Eco-Professional cleaning products are an environmentally conscious alternative to traditional cleaners. They are biodegradable, non-caustic, non-toxic, fragrance, dye, phosphate, butyl, and ammonia free. Eco-Professional cleaning products are industrial strength and engineered to work in commercial and industrial cleaning applications. Eco-Professional cleaners are formulated following the guidelines of the Design for the Environment partnership program and are made in Canada\*.

**BUY IT • TRY IT • LOVE IT, OR WE'LL REFUND IT!**

### Every Item is Guaranteed!

Professional and Eco-Professional cleaning products are 100% satisfaction guaranteed!\*\* If you are not satisfied with the performance of a Professional or Eco-Professional cleaning product, simply return the product with your bill of sale for a full refund! All products in this catalogue are guaranteed in accordance with the terms of any specific manufacturer's warranty. Retain bill of sale and warranties in case of future adjustment. Many products in this catalogue fall under Home's one year Warranty Exchange program. If a qualifying product proves defective within one year of purchase, your Home Dealer will replace it with a new one. See your Home Dealer for full details of our warranty exchange program.

\*Made in Canada and Design for the Environment certification only applies to Professional and Eco-Professional cleaning chemicals and solutions only, not tools or accessories.

\*\*Guarantee applies only to cleaning chemicals and solutions, not tools or accessories. Customer must read and follow all instructions on the label. See Home store for details. Guarantee will not be honoured without an original bill of sale.
